

CALIFORNIA GREEN ROADS

"We have used compost as a soil amendment and as a mulch layer, with great success, in a variety of Bay-Friendly Landscape projects. It creates a healthy soil that is full of life and conserves resources."

— Cynthia Havstad
Bay-Friendly Landscaping Program Manager
Alameda County Waste Management
Authority & Recycling Board

Good for the Bottom Line. Good for the Community.
Good for the Environment.

Using recycled-content materials including recycled aggregate, tire derived aggregate, rubberized asphalt concrete and organics can save money and help protect the environment.

Recycled-content materials often have multiple uses and are known for their performance or durability.

To learn more about how recycled-content materials can work for you, visit www.ciwmb.ca.gov.

Recycled aggregate can save up to \$53,000 per lane mile when it is used in place of virgin, mined aggregate.
